Professional Experience

O-I Packaging Solutions / Eastern Region (2016 to 2025)

Sales Manager & Commercial Business Manager for Wine, Food, Spirits, Beverage, and Beer Product Categories

- Managed 140+ clients with an annual sales volume of \$12m.
- Grew sales 12% YOY in a declining market landscape while leveraging customer relationships.
- Spearheaded business growth initiatives in the glass container industry, focusing on expanding market share and enhancing customer relationships within the wine, food, spirits, beverage, and beer segments.
- Successfully managed and grew Distributor relationships, increasing sales YOY 40%.
- Worked with planning teams to manage production schedules, ensuring optimal availability of products to meet customer demands and delivery timelines.
- Engaged with customers to provide accurate forecasts and insights, effectively addressing their needs and ensuring a customer-centric approach to business operations.
- Conducted routine client visits, collaborating effectively with employees across all organizational levels.
- Monitored industry trends and competitor activities to identify opportunities for growth and innovation within the glass container sector.
- Sourced glass containers globally when needed to successfully meet client needs.
- Worked extensively with in-house and outside decoration vendors to achieve high-end, extremely detailed bottle decorations for Spirits and Wine customers.
- Managed and participated in global and regional industry trade shows to effectively introduce our company and product line, while actively engaging with potential customers to understand and address their needs.
- Collaborated with outside vendors to assist with client branding in the capsule, corrugate, and closure industry to achieve client's needs.
- Collaborated with private label clients in the food, spirits, wine, and beverage sector to deliver tailored packaging solutions ensuring alignment with their marketing and production goals.
- Managed New Mold Development from design to production and delivery.
- Built strong relationships with cross-functional peers to understand their needs, priorities, and efforts, ensuring mutual support in achieving outcomes.
- Accountable for managing P\CL for assigned product categories, optimizing pricing strategies and trade funding to maximize profitability.
